ong ago, a great council of sorcerers existed, the Circle of Twelve. One from that

group of mighty wizards fell into the black arts. He was forever named the Warlock Lord and sought to subjugate the people of Kal Torlin. However, the remaining members of the Circle,

lead by the powerful Lakmir the Timeless succeeded in imprisoning the Evil One in a deep cavern below Castle Shadowgate. Centuries passed and the land enjoyed peace and prosperity as the Warlock Lord bided his

time deep below. An unfortunate accident triggered by a group of dwarves released the Evil from his magical cell. Seizing control of Castle Shadowgate, the Warlock Lord turned his control towards

summoning the mighty titan, the Behemoth.
With this powerful creature at his side the
Warlock Lord would be unstoppable!
